

Sun Rise/Set for Perth, Australia for 2029

(latitude -31:57:08.3, longitude 115:51:31.4)

For rise and set times, the numbers in brackets are the azimuth (compass bearing) of the Sun at rise or set. Transit time is the instant at which the Sun crosses the zenith and reaches its highest angle above the horizon. The number in brackets is the direction (n or s) and angle above the horizon at the transit time.
